SD Card real time data recorder, Patent Fast recorder, min. 20 ms sampling time

FORCE GAUGE 20 Kg

Model: FG-6020SD *ISO-9001, CE, IEC1010*

Test stand, optional FS-1001, FS-1002

The Art of Measurement

LUTRON ELECTRONIC

FORCE GAUGE

Model: FG-6020SD

FEATURES

* Data record mode: Normal model or Peak hold mode. * Normal record mode: Set sampling time from 1 second to 8 hours. * Peak hold record mode: Set sampling time from 10 ms to 500 ms. * Memory capacity of normal record mode: 1 GB to 16 GB. * Memory capacity of peak hold record mode: 1000 data no. (max.) * Under Peak hold record mode, if execute the " Data record " function, the memory circuit will store 1000 data no. (max.) measuring data into the SD card per fast speed sampling time (10 ms to 500 ms). * Under Normal record mode, if execute the " Data record " function, will save the measuring data along the real time value (Year/Month/ Date/Hour/Minute/Second) into the SD card per normal sampling time (1 second to 8 hours). * After save the data into the SD memory card, it can be down load the data to the Excel directly, extra software is no need. User can make the further data analysis (graphic analysis) by themselves. * Large LCD display with back light. * 20 Kg, wide capacity, high resolution, high accuracy, high repeatability. * 3 kind display unit: Kg, lb, Newton. * Tension & compression capability. * Peak hold (Max. load) can be held in display during make tension or compression measurement. * Zero button can operate both for normal measuring & the " peak hold " operation. * Full capacity zero (tare) control capability. * Fast/Slow response time push button. * Positive or reverse display direction select. * Full line accessories (adapters) are included. * Hand held & stand mounted gauges are available. * Low power consumption gives long battery life. * Build in low battery indicator. * Microprocessor circuit & exclusive load cell transducer. * Over load protection. * RS-232 computer interface * Built-in DC 9V power adapter input socket.		LATURES			
Set sampling time from 1 second to 8 hours. * Peak hold record mode: Set sampling time from 10 ms to 500 ms. * Memory capacity of normal record mode: 1 GB to 16 GB. * Memory capacity of peak hold record mode: 1000 data no. (max.) * Under Peak hold record mode, if execute the " Data record " function, the memory circuit will store 1000 data no. (max.) measuring data into the SD card per fast speed sampling time (10 ms to 500 ms). * Under Normal record mode, if execute the " Data record " function, will save the measuring data along the real time value (Year/Month/ Date/Hour/Minute/Second) into the SD card per normal sampling time (1 second to 8 hours). * After save the data into the SD memory card, it can be down load the data to the Excel directly, extra software is no need. User can make the further data analysis (graphic analysis) by themselves. * Large LCD display with back light. * 20 Kg, wide capacity, high resolution, high accuracy, high repeatability. * 3 kind display unit: Kg, lb, Newton. * Tension & compression capability. * Peak hold (Max. load) can be held in display during make tension or compression measurement. * Zero button can operate both for normal measuring & the " peak hold " operation. * Full capacity zero (tare) control capability. * Fast/Slow response time push button. * Positive or reverse display direction select. * Full line accessories (adapters) are included. * Hand held & stand mounted gauges are available. * Low power consumption gives long battery life. * Build in low battery indicator. * Microprocessor circuit & exclusive load cell transducer. * Over load protection. * RS-232 computer interface * Built-in DC 9V power adapter input socket.	*	Data record mode: Normal model or Peak hold mode.			
* Peak hold record mode : Set sampling time from 10 ms to 500 ms. * Memory capacity of normal record mode : 1 GB to 16 GB. * Memory capacity of peak hold record mode : 1000 data no. (max.) * Under Peak hold record mode, if execute the " Data record " function, the memory circuit will store 1000 data no. (max.) measuring data into the SD card per fast speed sampling time (10 ms to 500 ms). * Under Normal record mode, if execute the " Data record " function, will save the measuring data along the real time value (Year/Month/ Date/Hour/Minute/Second) into the SD card per normal sampling time (1 second to 8 hours). * After save the data into the SD memory card, it can be down load the data to the Excel directly, extra software is no need. User can make the further data analysis (graphic analysis) by themselves. * Large LCD display with back light. * 20 Kg, wide capacity, high resolution, high accuracy, high repeatability. * 3 kind display unit : Kg, lb, Newton. * Tension & compression capability . * Peak hold (Max. load) can be held in display during make tension or compression measurement. * Zero button can operate both for normal measuring & the " peak hold " operation. * Full capacity zero (tare) control capability. * Fast/Slow response time push button. * Positive or reverse display direction select. * Full line accessories (adapters) are included. * Hand held & stand mounted gauges are available. * Low power consumption gives long battery life. * Build in low battery indicator. * Microprocessor circuit & exclusive load cell transducer. * Over load protection. * RS-232 computer interface * Built-in DC 9V power adapter input socket.	*	Normal record mode :			
* Memory capacity of normal record mode: 1 GB to 16 GB. * Memory capacity of peak hold record mode: 1000 data no. (max.) * Under Peak hold record mode, if execute the " Data record " function, the memory circuit will store 1000 data no. (max.) measuring data into the SD card per fast speed sampling time (10 ms to 500 ms). * Under Normal record mode, if execute the " Data record " function, will save the measuring data along the real time value (Year/Month/ Date/Hour/Minute/Second) into the SD card per normal sampling time (1 second to 8 hours). * After save the data into the SD memory card, it can be down load the data to the Excel directly, extra software is no need. User can make the further data analysis (graphic analysis) by themselves. * Large LCD display with back light. * 20 Kg, wide capacity, high resolution, high accuracy, high repeatability. * 3 kind display unit: Kg, lb, Newton. * Tension & compression capability. * Peak hold (Max. load) can be held in display during make tension or compression measurement. * Zero button can operate both for normal measuring & the " peak hold " operation. * Full capacity zero (tare) control capability. * Fast/Slow response time push button. * Positive or reverse display direction select. * Full line accessories (adapters) are included. * Hand held & stand mounted gauges are available. * Low power consumption gives long battery life. * Build in low battery indicator. * Microprocessor circuit & exclusive load cell transducer. * Over load protection. * RS-232 computer interface * Built-in DC 9V power adapter input socket.		Set sampling time from 1 second to 8 hours.			
* Memory capacity of normal record mode: 1 GB to 16 GB. * Memory capacity of peak hold record mode: 1000 data no. (max.) * Under Peak hold record mode, if execute the " Data record "function, the memory circuit will store 1000 data no. (max.) measuring data into the SD card per fast speed sampling time (10 ms to 500 ms). * Under Normal record mode, if execute the " Data record "function, will save the measuring data along the real time value (Year/Month/ Date/Hour/Minute/Second) into the SD card per normal sampling time (1 second to 8 hours). * After save the data into the SD memory card, it can be down load the data to the Excel directly, extra software is no need. User can make the further data analysis (graphic analysis) by themselves. * Large LCD display with back light. * 20 Kg, wide capacity, high resolution, high accuracy, high repeatability. * 3 kind display unit: Kg, lb, Newton. * Tension & compression capability. * Peak hold (Max. load) can be held in display during make tension or compression measurement. * Zero button can operate both for normal measuring & the " peak hold " operation. * Full capacity zero (tare) control capability. * Fast/Slow response time push button. * Positive or reverse display direction select. * Full line accessories (adapters) are included. * Hand held & stand mounted gauges are available. * Low power consumption gives long battery life. * Build in low battery indicator. * Microprocessor circuit & exclusive load cell transducer. * Over load protection. * RS-232 computer interface * Built-in DC 9V power adapter input socket.	*	Peak hold record mode :

SPECIFICATIONS

Display	LCD (Liquid crystal display).			
	5 digits, 16 mm (0.63") digit size.			
	Back light.			
Display	Positive or Reverse direction, select by			
Direction	the push button on the front panel.			
Function	Tension & Compression (Push & Pull).			
	Normal force, Peak hold (Max. load).			
Peak hold	Will freeze the display value of the			
	Peak load (Max. load).			
Zero	Zero button can be operated both for			
	"normal force" or "peak hold" operation			
Unit select	Kg, lb, Newton.			
Measure	20.00 Kg/44.10 lb/196.12 Newton.			
Capacity				
Resolution	0.01 Kg/0.01 lb/0.02 Newton.			
Min. Display	0.02 Kg/0.07 lb/0.3 Newton,			
Accuracy	\pm (0.5 % + 2 digits), within 23 \pm 5°C.			
	* Under the test weight on 10 Kg & 20 Kg.			
Update time	Fast Approx. 0.2 second.			
	Slow Approx. 0.6 second.			
Over range	Display show " " when in over			
Indicator	range status.			
Data output	RS 232/USB PC computer interface.			
	* Connect the optional RS232 cable			
	UPCB-02 will get the RS232 plug.			
	* Connect the optional USB cable			
	USB-01 will get the USB plug.
