

# WXR 3032

3-Channel Rework Station, 420 W (600 W)  
Product no.: T0053503699N

## Benefits

- › Power unit WXR 3, 3 channels with WXHAP 200 Hot air iron, WXDV 120 Desoldering iron and WXP 65 Soldering iron

## Technical Data

|                                        |                                                          |
|----------------------------------------|----------------------------------------------------------|
| Dimensions L x W x H (mm)              | 273 x 235 x 102                                          |
| Dimensions L x W x H (inches)          | 10,75 x 9,25 x 4,02                                      |
| Weight (approx.) in kg                 | 6.7                                                      |
| Voltage                                | 230 V (50/60 Hz)                                         |
| Power                                  | 420 W (600 W)                                            |
| Channels                               | 3                                                        |
| Temperature range (depends on tool) °C | 100 - 450 (550)                                          |
| Temperature range (depends on tool) °F | 200 - 850 (999)                                          |
| Temperature accuracy °C                | ±9                                                       |
| Temperature accuracy °F                | ±17                                                      |
| Temperature stability °C               | ±2                                                       |
| Temperature stability °F               | ±4                                                       |
| Equipotential bonding socket           | Via 3.5 mm pawl socket on back of device (Hard grounded) |
| Display                                | 255 x 128 dots / Backlighting                            |
| Air consumption l/min                  | ---                                                      |
| Operating pressure in bar/psi          | ---                                                      |
| Capacity l/min                         | 18                                                       |
| Vacuum                                 | ---                                                      |
